Passion and Pursuit **Robert Heindel's Retrospective to Cherry Creek North**

DENVER – January 28, 2007 – Rose Heindel, wife of renowned artist Robert Heindel will be in Cherry Creek North at GALLERY M on Friday, February 9, 2007 to represent the works of her late husband who passed away at the age of 67.

Collected by Princess Diana, Sir Andrew Lloyd Webber, The Crown Prince of Japan, Princess Margaret and Hollywood's George Lucas, Robert Heindel's work depicts the motion, color, drama and love that is dance.

Known for his unique interpretation of dance, Robert Heindel's work illustrates the grace and beauty of dancers and theater performers. Heindel's paintings each have a signature rose painted within the subject matter as a dedication to his wife Rose. His love of dance and for his family is a fitting tribute suitable to anyone looking for inspiration this Valentines Day.

Heindel worked with dance companies in Dallas, Houston, San Francisco, Kansas City and Cincinnati as well as with The American Ballet. He then broadened his work abroad to The Royal, Monte Carlo, Scottish and The Japanese Ballet companies. Sir Andrew Lloyd Webber commissioned Heindel to capture the mood and personalities of Cats and Phantom of the Opera.

Ms. Heindel will be showing and selling some of her husband's final works. She will be on hand to discuss as the living authority, why her late husband was so dedicated to the art of the dance and the personality of theater.

Dancers from the Colorado Ballet will be attending the reception and showing of Heindel's works scheduled for February 9th from 5:30 – 8:00 p.m. The show will continue at GALLERY M through April 30.
